DETAILED ACTION

The following action is in response to the amendment filed for application 10/566,620 on January 18, 2011.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 36:

“clutch-transmission,” has been replaced with --clutch--.

Drawings

The drawings were received on January 18, 2011. These drawings are approved.

Allowable Subject Matter

Claims 23-32, and 34-36 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record fails to show or render obvious the method of operating an automatic transmission as claimed, and particularly including completing the first downshifting operation by engaging the clutch if a speed of the vehicle is above a predetermined threshold speed greater than zero determined by the second transmission gear ratio; or completing the first downshifting operation while

maintaining the clutch in a disengaged state if the speed of the vehicle is below the predetermined threshold speed, and including the remaining controls of claim 23. The present invention also particularly includes (b1) completing the first downshifting operation by engaging the clutch if a speed of the vehicle is above a predetermined threshold speed greater than zero determined by the second transmission gear ratio so that engine compression influences the vehicle; or (b2) completing the first downshifting operation while maintaining the clutch in a disengaged state if the speed of the vehicle is below the predetermined threshold speed, and including the remaining controls of claim 34. The present invention also particularly includes (b1) re-engaging the clutch with the next lower transmission gear ratio to complete the first downshift if a speed of the vehicle is above a predetermined threshold speed greater than zero determined by the next lower transmission gear ratio; or (b2) maintaining the clutch in a disengaged state with the next lower gear to complete the first downshift if a speed of the vehicle is below the predetermined threshold speed, and including the remaining controls of claim 36.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Roger L. Pang whose telephone number is 571-272-7096. The examiner can normally be reached on 5:30am to 4:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Le can be reached on 571-272-7092. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
